DAYS 2/3 ~ FRIDAY/SATURDAY ~ DECEMBER 28/29 BRAULIO CARRILLO NATIONAL PARK/ TORTUGUERO NATIONAL PARK

This morning, after breakfast, board your vehicle for a drive to the Rainforest Aerial Tram and begin your trip into the treetops to experience nature and view the forest from a bird's-eye perspective. The tram is situated in a 1,000-acre private reserve of virgin tropical forest that borders the Braulio Carrillo National Park. Your tour starts with a 15-minute video, followed by a 90-minute tram ride. You access the canopy as you glide along the 1.6 mile circuit in six-passenger gondolas. Your incredible views are enhanced by the quiet, allowing you to listen to the various sounds of the rainforest. The canopy is home to an enormous amount of flora and fauna and in their eagerness to search for light and space many plants have colonized the tree tops turning them into "small ecosystems" – these plants are known as epiphytes. Orchids, "bromeliads", different types of moss, ferns, lianas and the bejucos, are just some of the species which make up the canopy. The fauna is also very abundant, however it is much harder to observe. Ever present are many types of butterflies and some 350 species of birds have been reported here, such as the Solitary Eagle, Ornate Hawk-eagle, Rufous-vented Ground-cuckoo, Common Potoo, Lanceolated Monklet, Yellow-eared Toucanet, Bare-necked Umbrellabird, and Rufous-winged Tanager. Reptiles like snakes and lizards as well as amphibian species such as "tree frogs" can also be found, as well as mammals – three monkey species, two types of sloths, two kinds of anteater bears and a great number of bat species. From the Aerial Tram you can also appreciate all the different shades of green as well as the various sizes and shapes that the leaves have created as a strategy to capture sunlight.

Resume your drive through banana plantations to a jetty where you board your speedboat for your ride to Tortuguero, which consists of a vast alluvial floodplain. Tortuguero's tropical moist to wet forest is accessible only by small plane or boat, along the famous Tortuguero Canals. This system of rivers and man-made channels parallels the coast and cuts through beautiful primary forest. One of the wettest regions in the country, it is also one of the areas with the greatest biological diversity. There are 11 distinct habitats, ranging from littoral woodland and berm, to very moist high forest and swamp forest where the predominant species can grow up to 130 feet tall such as wild tamarind. The water hyacinths are so thick in places that boats cannot get through. The wildlife is rich and varied with unusually large populations of monkeys, anurans (60 species), birds (309 species) and fish. Some of the resident mammals are the elusive tapir which feeds mainly on plants and seeds,

jaguar (rarely seen), ocelot, kinkajou, collared and white-lipped peccary, Neotropical river otter, tayra, olingo, three-towed sloth, spider monkey and howler monkey. A fascinating mammal that lives in the swamps is the fishing bulldog bat which is one of the largest bats in the country. Three unusual anurans live in this wilderness – the smoky frog which abounds on the banks of streams, the glass frog which has such transparent skin that its internal organs can be seen underneath, and the poison dart frog which is dangerous to the touch. Resident avian species include the Green Macaw which prefers to move about in the upper canopy of the rain forests and mainly feeds on seeds of the wild almond tree, Great Curassow, Keel-billed Toucan, Turkey Vulture, White-necked Jacobin, Violaceous Trogon, Great Tinamou which is a very terrestrial bird that feeds on seeds, berries and small insects caught in its flight path, Neotropical Cormorant, Anhinga, and Montezuma Oropendula. The channels and marshes are home to seven species of land turtles which can be seen sunning themselves on logs in the middle of the water or on islands of floating vegetation. Here, too, you can find the West Indian manatee – one of the most endangered Caribbean species – crocodiles, caimans, and green iguanas. There's also a great variety of crustaceans and about 30 species of freshwater fish, including the gar – considered to be a living fossil and amazing when spawning, eel, bull shark, Caribbean snook, tarpon, red snapper and mackerel.

Renowned naturalist Archie Carr and author of the 1956 book *The Windward Road* did much of his work on sea turtles at Tortuguero and was instrumental in establishing the Caribbean Conservation Corporation (CCC) – his "Casa Verde" research station is still here. In fact, Tortuguero gets its name from the Spanish word for turtle and is the most important nesting site in the entire western half of the Caribbean for the green turtle – which gathers in large numbers to nest between July and October. Other species of sea turtles that also nest on the wide beaches of the park and refuge are the leatherback and hawksbill. The green turtle population is believed to have come perilously close to extinction in the 1960s when nearly every female turtle arriving to nest in Tortuguero was taken for the export market for turtle soup. CCC was established in 1959 specifically to study and protect Caribbean green turtles. Working closely with the Costa Rican government, CCC helped establish Tortuguero National Park in 1970, a move that offered protection to the turtles and strictly limited the number of turtles that could be taken. Green turtles were first tagged with flipper tags at Tortuguero in 1955. With the help of volunteers, almost 48,000 sea turtles have been tagged at Tortuguero since then. Some of these turtles have been recaptured by fishermen and others away from the Tortuguero nesting beach, providing useful information about sea turtle migrations and emphasizing the shared nature of the sea turtle resource. During your stay you will assist sea turtle biologists by helping tag and measure turtles. You will work with nesting turtles weighing up to 350 pounds and measuring three to

four feet in length. Other activities include counting eggs, marking nests, recording data, conducting morning nest surveys, track surveys and helping with nest inventories.

Located on the Northeast area of Costa Rica's Caribbean coast, between the Tortuguero Lagoon and the Caribbean Sea, Mawamba is a 15-acre beachfront lodge offering stunning views of the canals. Its beautiful gardens and rustic rooms, blended with the exuberant jungle vegetation, exotic birds and wildlife, create the perfect balance of nature. It is the ideal hideaway for nature lovers and people seeking soft adventure. The lodge has 36 comfortable rooms with private bathrooms, hot water, ceiling fans and rocking chairs for pleasant relaxing evenings. Hotel facilities include two docks, swimming pool, Jacuzzi, souvenir shop, relaxing ranchos with hammocks, nature trails, walking beach access, volleyball sand court and a conference room with air condition, where lectures of Tortuguero National History and videos are presented daily. Overnights at the MAWAMBA LODGE. (All Meals Daily)

DAYS 4/5 ~ SUNDAY/MONDAY ~ DECEMBER 30/31

ARENAL VOLCANO

Enjoy a delicious breakfast before the return boat ride to Cano Blanco's dock. From there your drive now takes you to Arenal, which is located in the northern region of Costa Rica. The landscapes as you drive along the twisting roads make for incredible photographs, so make sure you have your cameras handy. Costa Rica has so much to offer and no

exploration of this amazing diversity would be complete without a visit to the Arenal Volcano, rising to approximately 5,357 feet at its summit, although the exact summit height changes frequently due to the volcanic activity. In 1968, after having lain dormant for more than 400 years, Arenal Volcano erupted with extreme violence and fury. Since that time, it has maintained nearly constant activity that ranges from soundless explosions with large mushroom-shaped clouds of ash overhead, to booming explosions that send hot rocks nearly a mile into the air. Perfect classic cone shape and world class hot springs make this scene a must.

Tonight, visit the Tabacon Hot Springs for a swim in

the thermal pools and dinner. You will be transported to a higher level of energy, which makes Tabacon a one-of-a-kind place. From the heart of the volcano, spring fountains of thermo mineral water which form the Tabacon River, running at a soothing 102°F, form cascades, waterfalls, and natural pools through exotic tropical gardens, and flow into pools, to guarantee an unforgettable sensation. The resort features mineral water pools, indoor Jacuzzi, therapeutic massages and mud treatments (at an extra cost), restaurant with international and Costa Rican cuisine, tropical bars, souvenir shop, lockers, changing rooms, and showers. You may want to indulge yourself with a massage, a swim in the hot springs, or any other of the facilities offered before your included dinner here.

Your second day will include an exploration of the Arenal National Park in the morning. Your afternoon is at leisure to enjoy the fabulous facilities of your hotel. Welcome the New Year during a festive dinner at your hotel.

Your accommodation for the next two nights, the Arenal Manoa Hotel, is located just in front of the Arenal Volcano. Surrounded by gardens, pastures and wildlife, each guestroom has been designed with a panoramic view of the volcano. Take advantage of the spacious gardens for walking and meditation as well as the opportunities to see the daily operations of a typical Costa Rican farm. Relax at the pool or spa, all with the iconic volcano framing your view. Overnights at the ARENAL MANOA HOTEL. (B,L; B,D) www.arenalmanoa.com

DAYS 6/7 ~ TUESDAY/WEDNESDAY ~ JANUARY 1/2
MONTEVERDE CLOUD FOREST

Continue to Monteverde, one of the most beautiful cloud forests in the world. This afternoon, prepare yourself for a very unique experience, the Selvatura Treetop Walk on hanging bridges. You will be surprised to find yourself – like the birds – admiring Mother Nature from the top of the trees. This is because from the beginning of your walk you will be ascending – step-by-step – until you find yourself as high up as the vegetation that will surround you (from 150 to 510 feet). Here, a series of eight bridges await you in order to safely walk without any worries. The almost 2-mile walk is an unforgettable experience, the excitement of looking to one side and seeing the tops of the trees and at the same time feeling the sensation of walking among the clouds.

Your second day here is spent exploring the Monteverde community and the private Cloud Forest Reserve with your naturalist-guide. Monteverde is a rich and complex cloud forest reserve which protects six different ecological communities, making it a paradise for nature enthusiasts and a renowned field site for biological research. Note that a "cloud forest" differs from a "rain forest". In particular, a cloud forest will generally receive less rain on an annual basis than will a rain forest. However, a cloud forest generally has more humidity and (because of its higher altitudes) more cloudiness than a rain forest. The reserve encompasses about 10,000 acres, with many interesting trails to wander through the thick tropical vegetation. You'll recognize many familiar house plants growing freely in the wild, including schefflera, bromeliads, and ferns, as well as some more exotic species. Although it's difficult to spot them, more than 320 species of birds are resident, including the seasonal Resplendent Quetzal, considered the most beautiful bird in the Americas, as well as the Three-wattled Bellbird, Black Guan, Umbrellabird, Spangled-cheeked Tanager, Orange-bellied Trogon, Emerald Toucanet (you usually hear them more than see them), and numerous other specialties. Among the 100 species of mammals are the Baird's tapir, jaguar and ocelot (all rarely seen), howler monkey, kinkajou, and prehensile-tailed porcupine.

For the adventurous at heart there is an optional (*extra cost*) exhilarating excursion available at the Sky Trek, a system of trails, suspension bridges, and zip lines that offers visitors the opportunity to observe and appreciate tropical vegetation from different vantage points. Sky Trek Costa Rica offers a total stretch of over a mile of cables. The system is integrated with a gorgeous Cloud Forest trail, 1 ½ miles long. Enjoy a different perspective of the Monteverde Cloud Forest that not many people have a chance to see – as most of the wildlife found in the Cloud Forest is living or feeding in the tree tops. Along with the 11 cables zipping through the canopy forest, two suspended bridges 160 feet off the ground, and some of the most beautiful trails in the Cloud Forest, take advantage of the Sky Trek's observation tower that is 70 feet off the ground, where on clear days you can see the Arenal Volcano. This view reveals lush green gardens of mosses, ferns,

flowers, and epiphytes growing on every tree. Sky Trek in the perfect blend of nature and adventure as you fly over this magnificent jungle.

Your lodging will be at the Fonda Vela Hotel, located on a 35-acre property, full of lush forests and verdant pastures that are excellent for birding and hiking. In this tranquil setting, you may see parrots and emerald toucans that come to feed in the fruiting trees, occasionally. During certain months, the Fonda Vela is excellent for seeing Resplendent Quetzal, Three-wattled Bellbird and Keel-billed Toucans. Horses graze in the pasture below. The Fonda Vela Hotel has nine buildings nestled in the landscaped property, designed with natural lighting, privacy and warmth. All have large windows with views of the forest allowing the outside beauty to be a part of a cozy interior. Their 20 junior suites, where you will be accommodated, have a small refrigerator, table, king and queen-size beds, a comfortable sofa and telephones. Overnights at the FONDA VELA. OPTIONAL POST-EXTENSION TO THE CENTRAL PACIFIC

DAYS 8/9 ~THURSDAY/FRIDAY ~ JANUARY 3/4

TAMARINDO BEACH, GUANACASTE

Bid farewell to the rest of the group returning to San Jose and to the USA, and drive through the scenic countryside to yet another exciting destination. Spend your days carefree in the Guanacaste beach area, one of the most beautiful oceanfront destinations that Costa Rica has to offer. The Guanacaste province, situated on the northwest coast, is one of the most accessible, yet unspoiled beach areas in Costa Rica. This beach has reef for snorkeling and surfing. The very soft yellow color of the sand will feel wonderful under your feet, making this beach a magnificent place to discover and enjoy. Guanacaste blends exotic nature with warm and sunny weather.

The sun shines just about 365 days per year, and the temperature is pleasantly warm year round. In the rainy season, from May through October, you can expect a brief shower in the late afternoon, making the beach sparkle, and allowing for extraordinary sunsets. The beach is a three and a half kilometer stretch of white sand and warm blue water. Tamarindo is surrounded by National Parks to its north and south, and mountains with breathtaking views to its east. Nature is abundant, leatherback turtles lay their eggs in the northern part of the bay from October to February and howler monkeys are often heard and seen swinging on branches throughout Tamarindo.

Your first two days are spent at leisure in this peaceful getaway. On your second evening explore Las Baulas National Park where you will engage in a turtle nesting tour.

The park protects the largest number of leatherback nesting colonies in the whole Pacific Ocean. It is home to three turtle nesting beaches and two mangrove estuaries with one of them being the largest in Central America. Las Baulas was first put under protection in 1988 under the care of Maria Teresa Koberg, believed to be the turtle mother of Costa Rica. Koberg recruited local boy scouts, friends and students to the beach to help protect the turtles against poachers. She then went on to convert poachers into protectors and guides and campaigned heavily to retrieve a decree and then a law to protect the park.

The Tamarindo Diria Hotel is one of the most exclusive hotels in Costa Rica; the best location on the beach, with huge trees, flowers and plenty of wildlife in the gardens. You will literally find everything you need within the walls of your oasis, your sanctuary from crowds and noise and your haven of deep green and infinite sunsets. The beauty of Tamarindo will become a part of you. El Diria Hotel captures the ambiance of the surrounding beauty with breathtaking mountain and ocean views, approximately 25 yards to the beach. You will be accommodated in one of the finely decorated spacious guest rooms surrounded by tropical gardens. Delicately decorated, these rooms are equipped with two double beds, remote control air conditioner, ceiling fan, cable television, telephone, en-suite facilities and mini-fridge. The hotel has two spectacular pools, surrounded by lush tropical gardens fronted by the ocean.

DAY 10 ~ SATURDAY ~ JANUARY 5
RINCON DE LA VIEJA NATIONAL PARK

Today venture off to Rincon de la Vieja National Park one of Costa Rica's most diverse ecological parks. It is known for its spectacular fauna and flora. It is home to two volcanoes, the Rincon de la Vieja and Santa Maria, as well as six volcanic peaks and thirty-two rivers and streams. The park extends to both the Pacific Ocean and the Caribbean Sea. The Rincon de la Vieja volcano was named after a local Native American legend and had been an active volcano for over a million years.

Wildlife is abundant here. One can see spider and howler monkeys, sloths, jaguars, cougars, pumas and tapirs. Birdlife is also plentiful with the Emerald Toucanet and Blue-crowned Motmot, just to name a few. Aside from the fauna, the park is known for its flora including, Guaria Morada orchids, Costa Rica's national flower, as well as a plethora of Laurel and Guanacaste trees. The activities offered at the park are endless, soothing hot springs, long-winding trails where you can hike or opt for horseback riding and picnic areas where you can enjoy the natural scenery of this haven. Hiking is also available for those seeking to climb to the volcano's summit where phenomenal views of the Nicoya Peninsula and the Lago de Nicaragua can be enjoyed.

Return to your hotel, where the remainder of your day is at leisure

DAYS 11/12 ~ SUNDAY/MONDAY ~ JANUARY 6/7
MACAW SANCTUARY/SAN JOSE

Return to San Jose, but first stop at the Macaw Sanctuary for a glimpse into the efforts conservationists are taking to save these beautiful animals. Upon arrival in San Jose, check into the BOUGAINVILLEA HOTEL where the remainder of your day is at leisure. Tonight, enjoy a farewell dinner at your hotel. The next day, transfer to the airport for your return flights home. (B,L,D; B)

THINGS YOU NEED TO KNOW ABOUT COSTA RICA

Participants

- Participants must be able to climb in and out of buses and boats unassisted. You should also be able to tolerate nature walks at an easy pace on uneven terrain, sometimes uphill, for three or four hours at a time in heat and humidity.
- You should be in good physical health to enjoy this destination to its fullest.

In general, this trip requires:

- Flexibility and good humor – unexpected changes and/or glitches will occur
- A spirit of adventure and curiosity.
- Interest in and willingness to appreciate a destination with a modest infrastructure and a bending definition of comfort. That being said, some locations are nestled in absolute luxury where pampering is the norm.

Air Schedules

Choosing the best possible air arrangements for our travelers is always a challenge. We work with many airlines that offer the best level of service, routings and value for our programs. While there may indeed be more direct routings available with another airline, the cost of these flights may not be within the budget that allows us to give you the best value possible. If you prefer to purchase your own international air, please feel free to choose the “land only” rate for this program. **The start and end city for this program is San Jose, Costa Rica.**

Upon registration, you must provide your full legal name as it appears on your passport. In the event an airline ticket is issued with incorrect information you have provided, you will be responsible for charges associated with reissuing the ticket.

BRING-A-BOOK FOUNDATION

Your tour will include a visit to a local school. We encourage you to bring colorful books and magazines, particularly if you can get them in Spanish, as well as school supplies such as pens, paper, crayons, soccer balls, etc., which you can present to the children during your visit. You'll find that children in the schools are eager to meet with visitors, practice their English, learn about your culture and proudly share their own. You are often welcomed with a local song or dance. After seeing schools first hand, meeting the dedicated teachers, often working under difficult conditions, and children hungry for knowledge, many travelers have wanted to help the schools they visited or continue to support a child's learning opportunities after they return to their homes. Bring-A-Book is an innovative effort adopted by Classic Escapes to expand education opportunities for school children. The Bring-A-Book Foundation is a registered Charitable Trust that was created as a way to facilitate travelers' wishes to help the schools and is used to get books into the hands of children as quickly and economically as possible. Information will be given to you with your final documents, but if you wish to help further, feel free to call Classic Escapes at 800-627-1244 for details.

CLASSIC ESCAPES CONSERVATION FUND

In keeping with our mission to provide exciting, educational, and fun-filled experiences that nurture and directly support the diverse wildlife and cultures we visit around the world, Classic Escapes has established the Classic Escapes Conservation Fund to ensure that a percentage of all profits go to support conservation and wildlife researchers performing their critical work in the field. . Project support has included environmental education efforts in India and Bhutan, wild dog and cheetah conservation in Botswana, Kenya and Namibia, and global Earth Day education via school internet programs. By traveling with Classic Escapes, you are supporting travel as a tool for building the mutual respect, awareness and understanding that are vital to preserving this planet for future generations.
