DAYS 4/5~ SATURDAY/SUNDAY ~ MAY 19/20

LAKE MANYARA NATIONAL PARK

Depart this morning for Lake Manyara National Park (80,300 acres,) an ornithological paradise with over 350 species of birds. You'll see Verreaux's Eagle, a variety of vultures, storks, swifts and swallows winging their way atop the spectacular cliffs overlooking the lake. Lake Manyara, at 3,150 feet, varies in salinity levels with wetter and drier climate cycles, and at times it is replete with flamingos, pelicans, storks and cormorants. Springs in the park's northern end support a dense groundwater forest of magnificent giant fig and mahogany trees which shelter blue vervet monkeys and an abundance of baboons, bushbuck, waterbuck, and elephant. South of the groundwater forest, acacia woodland and open grassland are frequented by buffalo, wildebeest, impala, giraffe, zebra, and the elusive tree-climbing lions - the signature of this park. Perhaps the most recognizable tree found here is the baobab tree, which folklore says was uprooted and planted upside down. The hippo pool, where visitors may get out of their vehicles, is located on a freshwater stream that enters the lake at its northern tip.

During your stay you will visit Mto Wa Mbu village, a modern Tanzanian village made up of people from several tribal areas. The village, which few tourists visit, is a microcosm of life in rural Tanzania today. Following a lunch of traditional Tanzanian dishes served under banana trees in the heart of the village, explore the area with your village guides. Visit the

kindergarten, milling machine, banana beer vats, churches and local homes and farming areas where banana, millet, cassava and corn are grown.

Your accommodation for the next two nights will be the Lake Manyara Serena Lodge, located on the edge of the Mto Wa Mbu escarpment, overlooking the Great Rift Valley and the stunning Manyara soda lake. The great birds of prey that glide on thermals below your balcony inspired the design of Lake Manyara Serena Safari Lodge – swooping curves are complemented by soft, geometric patterns; stylish murals depict bird migration patterns. The circular shape of the buildings is a tribute to indigenous architectural traditions. All rooms have en suite facilities and private balconies overlooking the escarpment and the lake beyond. There is a curio shop, a swimming pool with vanishing horizon to Lake Manyara and a pool bar.

DAY 6~ MONDAY ~ MAY 21

GIBBS FARM/NGORONGORO CONSERVATION AREA

En route to the Ngorongoro Crater this morning, venture off to Gibb's Farm for lunch. Gibb's Farm is an oasis of green, calm and beauty, in a landscape that can often be parched, dry and dusty. This privately owned farm is notorious for its cuisine. The food is delicious, with fresh vegetables from the gardens cooked with care. Lunch includes a wide selection of savory pies and salads, served buffet style.

After lunch walk or drive a few miles to a traditional Iraqw home. The Iraqw are the local tribe that has inhabited the immediate Ngorongoro highlands in the area for over 200 years. The home is built entirely using traditional materials and methods of construction, just as it would have been 200 years ago. You will see many of the tools and weapons used by the Iraqw. Try your hand at grinding maize the traditional way using grinding stones and listen to a presentation and demonstration of Iraqw skirt making. While here you will also have the opportunity to visit a present day Tanzania farm and observe a bio gas plant used for producing gas for cooking and lighting. In the afternoon, visit a Maasai village and learn about this fascinating culture that has existed through the millennia in perfect harmony with nature.

As if in a land before time, the Ngorongoro Serena Safari Lodge is built near the rim of the crater. The plant and ivy-covered native stone blends masterfully with its surroundings and the flowering plants attract a plethora of colorful birds. Most of the 75 rooms have private terraces with views of the crater floor where countless animals make their home. Here, visitors exist in perfect harmony with the natural environment and the wildlife that inhabits it.

Overnight at the NGORONGORO SERENA SAFARI LODGE. (B, L, D)

DAY 7~ TUESDAY ~ MAY 22

NGORONGORO CONSERVATION AREA

This morning you drive to the Ngorongoro Crater, a World Heritage site, which is an extinct volcano and the largest unbroken caldera in the world. The cone is believed to have collapsed nearly two million years ago, and while the cone was standing, it could have been as tall, if not taller, than Mount Kilimanjaro. The crater (1,800 feet deep and 102 square miles) is a microcosm of East African scenery with abundant wildlife including more than 25,000 larger animals, mostly zebra and wildebeest. Board your land cruiser for an amazing journey as you descend onto the floor of the crater. As you descend, you might be able to see the local Maasai as they take their cattle down the steep walls of the crater. It is their right, negotiated with the government and parks authority, to graze their cattle in about 75% of the crater floor. The mix of cattle with the wild animals makes for some terrific photographs, and the interaction between

domestic and wild animals is almost non-existent. Your wildlife-viewing will be dramatic, and the experience memorable. This is also the best place in Tanzania to see magnificent black-maned lions. This area offers an outstanding opportunity to see black rhinos, as they are protected around the clock. Over the years, the floor of this crater has become mostly savannah (grassland), with a soda lake whose size changes depending on the rains that are the lifeline of this amazing land. On this lake, marvel at the colorful flamingos and a variety of other water birds – more than 100 species of birds found here that are not found in the Serengeti. Resident Ostriches, Crowned Cranes, and Kori Bustards are joined seasonally by migrant flocks of White and Abdim's Storks. Patience may also reward you with glimpses of leopard, cheetah, hyena, jackal, elephant, warthog, buffalo, impala, buffalo, hartebeest, eland and many other antelopes. You will be treated to a barbeque lunch on the crater floor. Return to the rim of the crater six hours later (regulations now specify that no one can stay longer than six hours daily on the crater floor) and drive to your lodge. In the afternoon, visit a Maasai village and learn about this fascinating culture that has existed through the millennia in perfect harmony with nature.

Overnight at the NGORONGORO SERENA SAFARI LODGE. (B, L, D)

DAYS 8/9~ WEDNESDAY/THURSDAY ~ MAY 23/24

OLDUVAI GORGE/SERENGETI NATIONAL PARK

You now drive to the legendary Olduvai Gorge. The drive to the gorge is breathtaking – passing through a spectacular mix of savannah grassland and volcanic hills, where red-robed Maasai graze their cattle, before it drops steeply down into the gorge itself. The name originated from the Maasai word “ole” meaning “the place of” and “dupai” meaning “wild sisal,” a local plant resembling aloe which grows abundantly in the area. This plant has yellow-green, succulent, spear-like leaves which form dense clumps, binding the loose soil of the gorge and sheltering many other plants and animals. Domesticated sisal is used to produce rope, rugs and baskets which are sold at the local markets and is one of the biggest exports of Tanzania.

Olduvai is one of the world’s most important paleoanthropological locations. This is where, in 1959, Mary and Louis Leakey found fossil evidence of the 1.7-million-year-old *Australopithecus Boisei* (*Zinjanthropus*) and *Homo Habilis* (Handyman). Thousands of stone tools, some of which have been used by *Homo Habilis*, have been found at Olduvai; the oldest style is easiest to remember, because it is called Oldowon. In addition to the remarkable human fossils, prehistoric elephant, giant horned sheep and enormous Ostrich fossils have been found here and extinct species unearthed include three-toed horses and giant antelope. Since the Leakeys first began searching the area for clues to our distant past, more than 60 hominid remains have been excavated, belonging to four different hominids, showing the gradual increase in brain size and in the complexity of their stone tools. The gorge itself is a very steep-sided ravine roughly 30 miles long and 295 feet deep. It resembles a small Grand Canyon with exposed strata of different layers where the deposits of rich fossil fauna, hominid remains and stone tools were found. The gray lines are volcanic tuffs and eruptions are used to estimate the age of the fossils. You will want to visit the museum which contains a cast of the 3.7 million year old footsteps of *Australopithecus Afarensis* preserved in solidified volcanic ash, found at nearby Laetoli by Mary Leakey in 1979. Outside the museum a Tanzanian guide will explain the geological features of the gorge and the work of the Leakey’s.

Resume your drive to Serengeti National Park (3,646,500 acres), the jewel in the crown of Tanzania's protected areas with over 3 million large mammals roaming its plains. It lies between Ngorongoro and Lake Victoria and adjoins Kenya's Maasai Mara. The Serengeti has come to symbolize paradise to all, including the local Maasai, who have grazed their cattle on the vast grassy plains for generations. To the Maasai, it is Siringitu - "the place where the land moves on forever." Today, the Serengeti National Park, the Ngorongoro Conservation Area, and the Maasai Mara Game Reserve across the border in Kenya, protect the greatest and most varied collection of terrestrial wildlife on earth, and one of the last great migratory systems still intact. More than a million wildebeest, accompanied by hundreds of thousands of zebras and other herbivores, descend upon the short-grass plains of the southeastern Serengeti at the start of the rainy season around December. After calving in January and February, they scatter over the southern and central plains. By May the rain ends, the grass has been reduced to stubble, and the animals begin their long march to dry-season grazing grounds near the permanent waters of the Serengeti's northern woodlands and Kenya's Maasai Mara. Reaching these destinations by July or so, they remain until October, when they head back to the southeastern Serengeti. This struggle for survival continues unaided and unaltered through the

millennia! The Serengeti is incredible to visit any time of the year. Your twice-daily drives will allow ample game viewing.

Your accommodation, the Serengeti Serena Safari Lodge, is set high on a hill with breathtaking vistas of sweeping grasslands and the unspoiled wild landscape of the Serengeti plains. The lodge design is simple but stunning. Inspired by a traditional African village, separate rondavel "huts" house the luxury guest rooms that have their own view of the vast Serengeti plains. From the overall impression to the smallest detail, the lodge is rich in local atmosphere created by indigenous handicrafts and art. A delightful water feature runs through the main public areas, creating a natural source of waterborne plants and provides a home to

many native species of reptiles, amphibians and birds.

DAYS 10/11~ FRIDAY/SATURDAY ~ MAY 25/26

SERENGETI NATIONAL PARK

Continue your visit of Serengeti National Park today as you travel to your next accommodation. You will enjoy a game drive en route. You will be in the famed Grumeti River area in the Western Corridor where the migration should be unfolding at this time of year. Many of the amazing shots people have seen on nature documentaries are taken in this area at this time of year as the struggle for the migration is at its peak. It's not unusual to see long file of wildebeest and the ever-present zebras trying to cross the river, while huge crocodiles lie waiting for them. Grumeti is famous for its huge crocodiles and hippo populations. This is a truly beautiful area to spend three nights and you're sure to find some kopjes (rocky outcroppings) to enjoy your sundowners while watching the panorama that unfolds before your eyes.

Your accommodation for the next two nights will be at Kirawira, a reincarnation of an elegant Victorian era outpost, set against the imposing backdrop of the Western Serengeti. Here, guests experience Africa's majesty as if they are among the first to travel these extraordinary lands. Set upon a hill with commanding views of endless savannah, the luxury tented camp beckons you to experience the soul of the African wilderness. The camp is built in the remote regions of the Grumeti River and is home to a wide variety of big game – lion, buffalo, cheetah, wildebeest, giraffe, baboon and gazelle. From almost anywhere, there are spectacular vistas of the Serengeti stretching to the horizon. Guests enjoy the highest standards of personalized attention, accommodation, meals and service. You will be here during the optimal time to view the awe-inspiring annual migration. Overnights at KIRAWIRA CAMP. (B, L, D Daily)

THINGS YOU NEED TO KNOW ABOUT EAST AFRICA

Participants

- Participants must be able to climb in and out of safari 4x4 vehicles, minibuses and small aircrafts unassisted. They should also be able to tolerate riding on uneven, bumpy dirt roads for long periods of time (6-7 hours maximum), as well as some off-road experiences when opportunities allow.
- Participants should also be able to stand and / or walk moderate distances at an easy pace for up to a few hours at a time when visiting villages, towns or other sites. Some, if not most, of this walking may be on uneven ground or uphill, often at higher elevations and altitudes that many people are not used to.

General

- True adventure in travel can sometimes be accompanied by unexpected changes in conditions, itineraries and occasionally your accommodations.
- Participants should travel with a spirit of adventure and flexibility. Remember to pack your patience and sense of humor! Be willing to look past self-imposed ideals of Western amenities and do not compare these new experiences with your life back home. Travel often includes visiting destinations with modest infrastructures and a bending definition of comfort. That being said, some locations are nestled in absolute luxury where pampering is the norm.
- Participants should generally be in good health and prepared to travel in locations without medical facilities.

BRING-A-BOOK FOUNDATION

Your safari will include a visit to a local school. We encourage you to bring colorful books and magazines, as well as school supplies such as pens, paper, crayons, soccer balls, etc., which you can present to the children during your visit. Many of these children have never owned a book in their life and the connection you'll make with them is invaluable. You'll find that children in the schools are eager to meet with visitors, practice their English, learn about your culture and proudly share their own. You are often welcomed with a local song or dance.

After seeing schools first hand, meeting the dedicated teachers working under the most difficult conditions and children hungry for knowledge, many travelers have wanted to help the schools they visited or continue to support a child's learning opportunities after they return to their homes. Bring-A-Book is an innovative effort adopted by Classic Escapes to expand education opportunities for school children. The Bring-A-Book Foundation is a registered Kenyan Charitable Trust that was created as a way to facilitate travelers' wishes to help the schools and is used to get books into the hands of children as quickly and economically as possible. With compassionate ground operators such as Rangers Safaris, Wilderness Safaris and &Beyond, Classic Escapes has expanded the reach of BAB to Tanzania, South Africa and Zambia, and plans to expand to other countries as well. Information will be given to you with your final documents, but if you wish to help further, feel free to call Classic Escapes at 800-627-1244 for details.

CLASSIC ESCAPES CONSERVATION FUND

In keeping with our mission to provide exciting, educational, and fun-filled experiences that nurture and directly support the diverse wildlife and cultures we visit around the world, Classic Escapes has established the Classic Escapes Conservation Fund to ensure that a percentage of all profits go to support conservation and wildlife researchers performing their critical work in the field. Project support has included environmental education efforts in India and Bhutan, wild dog and cheetah conservation in Botswana, Kenya and Namibia, and global Earth Day education via school internet programs. By traveling with Classic Escapes, you are supporting travel as a tool for building the mutual respect, awareness and understanding that are vital to preserving this planet for future generations.
